

Monitor Installation Instructions For the DiscGlo

1. Install Monitor Bracket first. *Note: If you are installing the marquee, refer to those instructions after this installation.*
2. Install Monitor to Monitor Bracket.
3. Allow an hour for the monitor to warm to room temperature.

Marquee Mounting studs should face the back of the machine.

Installing the Hand Guards

The Hand Guards were designed to prevent a spectators had from interfering with the laser. Follow the instructions below:

1. Remove the hex head screws from one of the Laser/Sensor Assemblies.

2. Install a Hand Guard over the Laser/Sensor Assembly using the 2 screws you just removed.
3. Repeat Steps 1 and Step 2 on the opposite side.
